

To install Zotero using the Google Chrome Browser

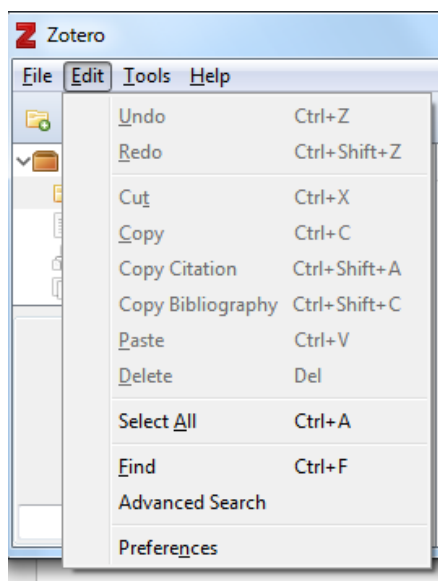

1. Select the **Google Chrome** Browser and type in <https://www.zotero.org/download/>

And click on Zotero downloads. **Download Zotero 5.0 for windows** and click on yes when asked do you want to allow changes etc. Click on **Install Chrome Connector** – click on add extension

The Zotero icon will appear in the **Google Chrome** browser, upper right hand of page. Now **Register** a new account

2. When account is set up click Edit > Preferences > sync and enter your account details to synchronise your details as a Zotero permanent account user.

3. click on **Edit > Preferences > Cite**. Click on **Get Additional Styles** and scroll to **University of Limerick (Cite it Right) – Harvard** and click ok

4. For future use simply open www.zotero.org using the same browser that you set up the account in for example **Google Chrome**, and log in with your account details.
